That in the house

I always have been, and still continue, unwaveringly

the friends, and in accord with the policy of General Jackson.

My opinions on banking were developed on the agitation

of the question in 1811 and 1816; and those opinions

have been strengthened by an experience of more than

thirty years since my first discussion of the subject.

I consider, and always have considered, the Bank of the

United States as not only unauthorized, but in open violation

of the Constitution.

I consider, and have considered from the beginning, the

16th section of the Bank charter, an act of usurpation of

power by one branch of the Government in derogation of

the Constitution, which establishes one only Executive officer;

that section being an usurpation in appointing a second

Executive in disregard of the first.

I have always considered the power of the President to

remove his Secretaries unquestionable.

On the actual removal of the deposits, I believed that

the only difficulty was a question of prudential policy, but

was persuaded that the removal would be used by the

Bank as an instrument of mischief, affording to

unscrupulous men an opportunity to play off the changes of

1820.

I fully concur and accord with the admirable paper,

called a Protest against the unconstitutional proceedings

in the Senate.

I concur in the whole letter and spirit of the two un-

answered and unanswerable speeches of Col. Benton on

the Bank question. (Signed) WM. DUANE.

Philadelphia, June 4, 1834.

Most heartily do we welcome to the unshaking

and consistent "Protest" returned to the patronage of

Republicans throughout the Union.—Jb.

What will the Opposition print now say to the above?

The last Fredericksburg Arena ventures the following

prediction:

"We have already announced that the Aurora is to be

revived by Col. Duane, (father of Wm. J. Duane,) so long

distancing and converting the Democratic party in bygone

times. The Aurora, we are told, is to be revived in

Washington, seems confidently to expect that its organ

will be able to do more for the Administration. It will

find itself mistaken. The Aurora will be one of the

active points in opposition, and will complete the downfall

of Jacksonianism in Pennsylvania."

The honorable Daniel, of the doleful countenance, will

dry up his tears, and will be seen in the city, to return

eastward, to have all his melancholy forebodings of the

ruin of commerce dissipated, by seeing the Hudson

smoking under the busy, brisk, urgent activity of traffic

that is following in the wake of the steamboat.

"A FLEET."—On Saturday afternoon at 5 o'clock, no

less than thirteen steamboats started for Albany and the

intermediate places—several of them with two and three

hundred passengers, and a large amount of freight. The

steamboat, De Witt Clinton, Victory, New London, French

United States, and the Hudson, were the most

of the fleet. The Hudson, which was the largest, was

laden with a large amount of freight, and was the

most comfortable of the fleet. The Hudson, which was

THE CHANCERY STATE.

The Message of Gov. Badger was transmitted to both

houses of the Legislature on the 11th of May, and was

devoted principally to a review of the local affairs of the State.

He particularly urged the attention of the Legislature

to the extension of the means of education, and recom-

mended the establishment of a normal school, and the

State, so as to equalize the burden upon all classes, and

to become a military spirit—a renewal of the appro-

priations for the education of the deaf and dumb, and

the education of the blind, and the establishment of a

system of charities for that purpose, under the patronage

of the State. He also called attention to the criminal code

of the State, and recommended an inquiry into the policy

of substituting solitary confinement and hard labor, for capital

punishment.

The great question which now agitates the country

connected with the renewal of the charter of the U. S.

Bank, is the subject of the present paper. The Governor, after

advising to the support of the Bank, "to exert

to the utmost of our power, to secure the preservation of

the people," and after declaring his belief that the Bank

is "the only principle of practical utility, and the only

principle of government," suggests the propriety of seizing the opportunity

presented by the present session, to express the views of the legislature on this

important subject. The Governor, in his message, declared

the legislature on the subject of the Bank, we notice that

an extra number of Gov. B.'s message was ordered to be

printed in the Senate by a vote of 8 to 2.—Albany Argus.

CONCORD, June 16.

VOICE OF NEW HAMPSHIRE.

Representatives on Thursday last, the following Resolution

was passed by a vote of 163 to 62:

Resolved, by the Senate and House of Representatives
